The 50 MHz DX Bulletin

Volume 5, Issue 8

August 1994

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schools KA3B. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K6FV. Subscription rates are \$20 U.S. third class mail, \$25 U.S./Canada/Mexico airmail, \$30 by airmail elsewhere for 12 issues. Circulation matters and DX reports should be sent to 12450 Skyline Blvd., Woodside, CA 94062-4541 USA. My Internet address is frank@sneezy.sri.com. My packet address is: K6FV@N0ARY.#NOCAL.CA.USA.NA.

OH2BC, Espoo, Finland

Kari Leino, OH2BC, sent me one of his QSL cards which contains the picture below. At first glance, the array of four 11 element yagis appears to be for 2 meters. But no, this is a 6 meter fully-steerable array on a rotating tower. These Europeans take "The Magic Band" seriously.

The Es DX Continues

Inside you will find reports of two Sporadic-E contacts on 222 MHz, as well as monitoring of Weather Service transmissions on 162 MHz, and Channel 7 TV.

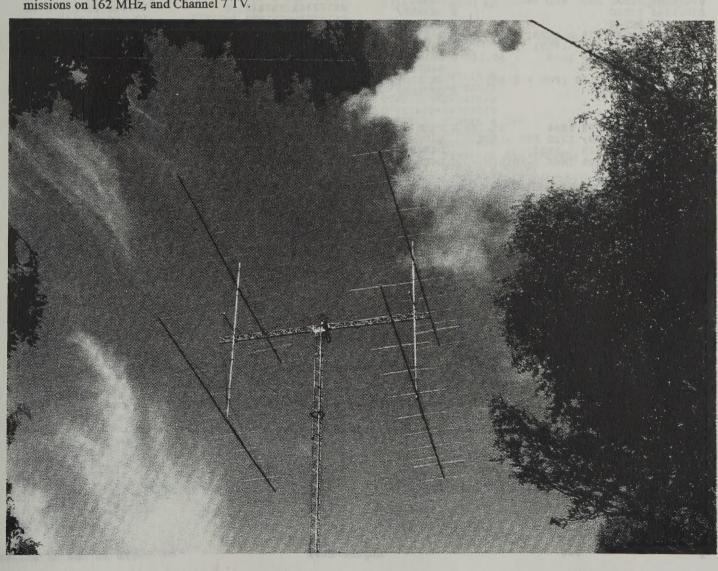

There are also two (late) reports of FM broadcasts from Southern California being received in Alabama either by two hop Sporadic-E or tropo + Sporadic-E.

It was a great summer, at least for East Coast USA, with 50 MHz openings to Europe and Africa, and Single-hop 144 MHz Es openings; but Bob, K6QXY, remarks that by mid-July the season was winding down on the West Coast.

Other than the Sporadic-E opening of June 21 to KH6HME, no 50 MHz amateur signals were reported from the Pacific. KL7s and Asian 49.75 MHz TV video carriers, but no JAs, were heard; a disappointment.

VE3ONT 50 MHz EME Tests

Mark the date October 30, 1994 down on your calendar. The Toronto VHF Society plans to include 50 MHz operation at the 46m (150') Algonquin Park dish. DXer & 6m EME enthusiast James Treybig, W6JKV, will be on-site as one of the operators. See our EME News section for details.

June-August 1994 DX Reports

The following reports of 50 MHz and higher DX heard and worked are courtesy of VHF-UHF Digest, G4UPS, SM7AED, JA1VOK, JR3HED, K6QXY, KD6GDL, KB6NAN, TI2NA, ON4KST, and VE7SKA. Reports of SMs are courtesy of SM7AED's news sheet. Reports of JA, HB9AMZ, and WB4WTC, are courtesy of JA1VOK's World VHF News column in Five Nine. Apologies to any I may have left out. In the tabular listings which follow, the year (1994) is understood, the day of the month precedes the time, and both are in UTC. A + to the right of the time indicates the observation was one of several in a time period and is probably later than stated. The call at the right is that of the observing (and usually reporting) station. Symbols, V = Video Carrier, I = In-band video sidebands, F = FM audio, B = beacon, C = CW, S = SSB, H = heard only, T = Television Picture. Since the reports from the Northern Hemisphere are again very voluminous this month, we have divided the U.S.A. into call areas and Canada into East & West.

Western Sahara: From SM7AED's 6-meter Info newssheet: "EH2JG states that S01MZ will be QRV from the end of July to early August on 6M with a new antenna and TS680S. He's currently in Spain, collecting equipment. EH2JG says it gets up to 55-60°C during the day, so it's difficult to erect antennas! A packet message will be circulated from Spain when he is 100% QRV." As Shel would write: "No further info!" Did this one come off?

Azerbaijan, C.I.S.: SM7AED writes that on July 19 R3VHF, Oleg, told him that Vlad, UD5DE, got the callsign 4K6D on January 1 and that he has a 6M license and is QRV. In a packet message, IK1EGC said, however, that 4K6D's transmissions on 6M were only a "check," and that he has no 6M license, but hopes to obtain one in the near future. He is using a home-made transverter with BF981, 40W out, 2 el. quad. QSL info is on the back page.

England: G4ASR is quoted in SM7AED's news sheet as saying that effective July 15, UK class A and B license holders are allowed 400 W from 50-51 MHz with no ERP or antenna restrictions. Maritime mobile operations are now also allowed.

G0MGA/p was to activate the Lizard Peninsula, IN79JX between August 7-13. Lizard Pt is the southernmost point in England in Cornwall, across Mount's Bay from Penzance. Penzance? You remember Gilbert & Sullivan's Pirates of . . . !

News of North America

I have included only recent (or exceptional) observations of FM, Weather Service, and TV DX from August's VHF-UHF Digest. There was just too much May and June activity. This month's reporters include William Eckberg in Dixon, IL 61021; Matt Sittel in Tallahassee, FL 3312; John Ebeling in Bloomington, MN 55431; Bruce Hall in Brantford, ONT N3T 1E2 (who caught 2 FM stations in Bermuda on June 27); Saul Chernos receiving at Burnt River, ONT; Keith Pugh in New Hope, AL 36760 (who caught two CA FM stations); Mike Jeziorski in St. Augustine, FL 32086; Danny Buntin in Stillwater, OK 74075; William Draeb in Kewaunee, WI; and Jeff Wolf in Silver Springs, MD 20902.

Belize: Bill, W6YLL, writes of his V31DW operation: "July 8-9, After opening with KB5RKO at 2130Z, I proceded to work another 80 4,5,6,7,0 stations along with XE1J and XE1ABA. The N0LL beacon came in at 2200Z. I heard TI2NA and stations calling XE3EB and W6JKV/VP2. WB6BYA was the last US station on the band holding strong until 0055Z. I had solid propagation to XE1J through 0200 (July 9). July 14, a brief opening (0020-0050) to VE2PEP in FN46, WB4WTC, and KA2RDH in EM. Heard partial calls of W1s and W2s."

Canada, Eastern: John Walker, WZ8D, sent the results of his grid trip to VE3 this summer. "From June 30 through July 7, I had a total of 850 QSOs on 6 meters from the following grids: EN76, 86, 87, 88, 98, 99, 89, 79, 69, 59, 58, 48, 49, 39, 38, EO40 AND EO30. Contacts were made both mobile and portable. Anyone still needing a QSL should send a SASE to John Walker, WZ8D 1930 Meredith Dr. Loveland, OH 45140. I have already mailed out about 320 QSLs. I plan to return next year about the same time frame. Plan to go to EO40, 41, 51, 52, and 42.

Canada, Western: John, VE8EV, in Inuvik (CP38), reports that aside from the VE8RAF expedition to Ellesmere Island, the only VE8s on six meters are himself, VE8KM in Cambridge Bay (DP79) (who runs a beacon on 50.004), and VE8CK in Yellowknife (DP22). He is working on trying to convince a few others to join in the activity on 6m.

Beacon News

St. Kitts: Joe Pater, WB8GEX, and John Walker, WZ8D, announced that they plan to leave a 6 meter beacon on St. Kitts in late November. The call will be V44K, and the frequency will be 50.0555. It will be operating on 3.5 watts with a dipole antenna at 1580 ft. The beacon was donated by Jerry, WA8R.

Iowa: Tom Gruis, KOHTF, operates beacons on 28.250, 50.070, 144.290, 222.053, and is planning to add 432.350. Due to the construction of a new garage, which will include a room expecially for all of these transmitters, all of these beacons will be off the air from mid-August until late September or early October. This is the first interruption in 8 years of service.

N.W.T., Canada: N7DB reports hearing VE8KM in Cambridge Bay (DP79) on 50.004 with ID every five minutes.

Silent Beacon List

The following six meter beacons which appeared on my Silent? Beacon List of 6/21/94 are now confirmed to be

not presently on the air:

freq	station	location	grid	pwr	source
50.036	UL8GDD	KAZAKHSTAN	MN84		PA3FYM
50.037	V73AX	MARSHALL I	RJ38	25	КН6НН
50.050	VE7BEE	BR. COLUMB.	DN09	10	QSY 52.003
50.061	WBORMO	NE	EN10	100	KOUS
50.070	KB4UPI	AL	EM63	5	KB4UPI

Not Silent Beacon List

The following six meter beacons which appeared on my Silent? Beacon List of 6/21/94 are now determined to be on the air:

freq	station	location	grid	pwr	source	
50.062	WA8R	KY	EM79	1	WA8R	
50.070	KOHTF	IA	EN31	2	KOHTF	
50.070	KK4M/7	NV	DM26	5	KK4M/7	
50.0775	WBUR	MI	EN75	2	W8UR	

DX-pedition News

Singapore: 9V1ES is expected on 50.125 SSB/50.075 CW spot frequencies with a T-620B (10W) by 9V1YJ, 9V1ZB, and others on Sept 4-10.

St. Kitts: Joe Pater, WB8GEX, and John Walker, WZ8D, are planning a DXpedition to St. Kitts (NA-104), November 19 through November 27, 1994. Bands operated will be 6 through 160 meters, SSB & CW. Calls: V47NF (WB8GEX) and V47WZ (WZ8D). QSL direct to the respective U.S. calls with SASE.

EME News

Dennis Mungham, VE3ASO/VA3SO, writes: "I am associated with the Toronto VHF Society, VE3ONT, and as you probably know, last year we put on a highly successful EME operation from the Algonquin 46m dish during the ARRL EME Contest. Our plans were to repeat the operation this year on 144, 432, and 1296. I have just returned from the Central States VHF Conference where we decided to give 50 MHz a try this year.

Our decision was partly based on encouragement from W6JKV and K6QXY who were also in attendance. The 50 MHz operation will be in parallel with 1296, so the dish will be fitted with dual feeds for the October 30th date. Technical details are still being worked out. The dish has a theoretical gain of 25 dBI, which is a couple of dB more than the largest home yagi arrays. Stations with a KW and a single long yagi should be able to work us.

Our press release is attached. W6JKV will be on-site in Algonquin Park as an operator during the October 29-30 weekend. . . . "

VE3ONT to be active in 1994 EME Contest

Again in 1994, The Toronto VHF Society - VE3ONT, will participate in the ARRL EME Contest using the Institute for Space and Terrestroa; Science's 46m (150') Algonquin Park dish (grid square FN05xw). This year's operation will add 50 MHz for the first time and provide two full days of operation on 144 MHz.

	UTC Date	VE 30NT	TX	Listening Range	Times(UTC)
--	----------	---------	----	-----------------	------------

Oct	29	432.050	432.050	- 432.060	0645-1815
Oct	30	1296.050	1296.050	-1296.060	0745-1844
Oct	30	50.100	50.100	- 50.105	0745-1844
Nov	26	144.100	144.100	- 144.110	0538-1645
Nov	27	144.100	144.100	- 144.110	0646-1713

Because the Algonquin dish has a 9° lower elevation limit, stations with horizon-fixed antennas in Eastern North

America have a limited chance to work VE3ONT. As in 1993, VE3ONT will operate "split." The following operating hints will improve your chances of making a QSO.

- Do not call on VE3ONT's TX frequency, pick a random frequency in the listening range. Use the full range, we will be looking for stations in the clear.
- VE3ONT will use circular polarization on the bands 144-1296 MHz. You may use linear of circular polarization to work us, and if circular, use RHCP on TX and RX for 144 and 432. On 1296 we will have switchable sense, use either the satellite or EME polarization convention.
- Conditions permitting, VE3ONT may start each operating period on SSB to work strong stations as quickly as possible. Please do not call again for a second contact on CW. Conversely, if you work us on CW, please do not call again for an SSB QSO.
- All contacts will be "random" with no schedules or sequencing. Please be patient, the QRM on our end was intense in 1993.

Low power and OSCAR class stations are encouraged to make an EME contact. 100 Watts delivered to a single long yagi should be sufficient on 144 and 432. On 1296, stations were worked with as little as 10 Watts and a 2m (6') disk in 1993.

Use of the disk at the Algonquin Space Complex is always subject to last minute preemption for non-amateur purposes.

QSLs with an SAE to Dennis Mungham, VA3SO, RR 3, Mountain, Ontario, K0E 1SO CANADA. Reception reports will also receive a QSL. Be sure to send an EME contest entry to the ARRL.

Contests

September ARRL VHF Contest: Starts Saturday September 10 at 1800 UTC and ends Monday, September 12 at 0300 UTC. Full rules can be found in August QST; but are similar to June VHF QSO Party condensed rules in April 94 Bulletin.

Canadian 50 MHz Sprint: Starts October 1 1000 UTC and runs to 2400 UTC. Exchange is grid square. One point per contact. Score is points X grid squares. Mail logs to Dana Shtun, VE3DSS, 500 Willard Ave., Toronto, Ontario, M6S 3R6 CANADA.
